EASILY CHECK FOR LICE & EGGS WITH 5X MAGNIFYING GLASS

COMB IN COMFORT WITH ERGONOMIC HANDLE

LONG TEETH FOR LONG HAIR

SHORT TEETH FOR SHORT HAIR

directions for use

WET OR DRY COMBING

- 1 Select long or short tooth comb for hair type.
- 2 Run the detangling teeth of the Head Lice Comb through the hair to smooth out knots and tangles.
- 3 Wet hair if using a conditioner, then divide hair into 4cm wide sections and comb through from root to tip with the metal comb. Wipe any lice or eggs off the comb and onto a tissue. **Tip: The short tooth comb is best to remove head lice eggs.**
- 4 Continue combing until the hair appears clear of eggs and lice. **Tip: Use the magnifying glass for a more thorough check.**
- 5 To ensure the head lice life cycle has been broken, steps 2 to 4 should be repeated every 3 to 4 days for 14 days to remove the lice.
- 6 Rinse hair thoroughly with warm water and shampoo as normal. Wash NitWits Head Lice Comb in warm soapy water and dry.

USING A TREATMENT SOLUTION

- 1 We recommend using NitWits All-In-One Head Lice Solution. Follow the directions to Kill Head Lice and their Eggs.
- 2 Use NitWits Head Lice Comb to remove the dead eggs from the hair shaft.

DO NOT BOIL THE COMB. DO NOT USE IF COMB IS BROKEN. STORE IN A DRY PLACE.
